

**$\mu'$ ( $\mu''$ )-Frequency**

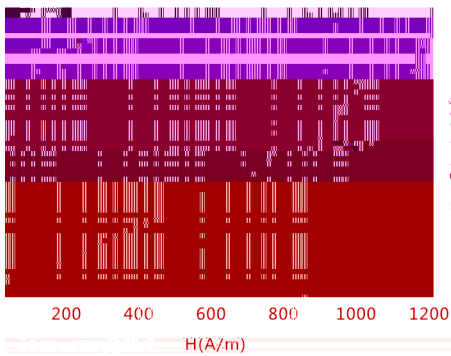

| Property               | Symbol                        | Unit | Value              |
|------------------------|-------------------------------|------|--------------------|
| Curie temperature      | $T_c$ (°C)                    | /    | $\geq 110$         |
| Electrical resistivity | $\rho$ ( $\Omega \cdot m$ )   | /    | 0.1                |
| Density                | $\alpha$ (kg/m <sup>3</sup> ) | /    | $4.95 \times 10^3$ |
| Core diameter          | $\phi$ (mm)                   |      |                    |
